

ZINCBACILIF

ZINC BACITRACIN 15% GRANULES
FEED GRADE

Control
Necrotic
Enteritis

Zincbacilif is an antibacterial feed additive containing feed grade Zinc Bacitracin standardized to the desired potency. Bacitracin methylene disalicylate is a dried precipitated fermentation product obtained by culturing *Bacillus licheniformis* Tracy on media adapted for the microbiological production of bacitracin.

COMPOSITION:-

Each kg contains 150gm of Zinc Bacitracin.

BENEFITS:-

- ◆ Improves growth and body weight in the broiler birds.
- ◆ Improves egg production in layer birds.
- ◆ It has strong antibacterial properties on both gram positive and gram negative bacteria.
- ◆ Controls harmful bacteria in the birds.
- ◆ No tissue residues and no drug residues.
- ◆ Remarkable increase in egg productions.
- ◆ Improves FCR feed conversion ratio.

INCLUSION RATE:-

Broilers: 250-300gm per ton of feed.

Layers: 300gm per ton of feed.

Or advised by the **Veterinarian**.

PRESENTATION:-

25kg Bag
